

2007 Tundra at a Glance

2007 TOYOTA TUNDRA AT-A-GLANCE

Essentials

- All-new, second-generation 2007 Tundra full-size pickup truck is larger in every dimension than the model it replaces.

- Designed and engineered in the United States and built exclusively in the company's truck plants in Texas and Indiana.

- Available in 31 model configurations encompassing three cab styles, three wheelbases, three bed lengths, three engines, three trim levels and a choice between 4x2 and 4x4 drivetrains.

- V8 is the most powerful in Toyota's line-up.

- Available 10,800 lbs. maximum towing capacity.

- First full-size pickup with standard front seat side and roll-sensing side curtain airbags in all models.

- Available user technology includes JBL audio with Bluetooth® cell phone compatibility and navigation system with rear backup camera

Three Cab Styles, Three Trim Levels

- Regular cab, four-door Double Cab, and four-door CrewMax models.

- Double Cab has front-hinged doors that open to 80 degrees for easy access, with rear seat providing 34.7 in. legroom. CrewMax has best-in-class 44.5 in. rear seat legroom and features segment's only reclining and sliding rear seat. In the Double Cab, the seat bottom folds up to provide a flat floor storage area. The Crew Max seat back folds down for flexibility in seating vs. storage.

- Regular Cab standard with DX trim level and can be upgraded to SR5; Double Cab and CrewMax models available in SR5 and Limited trim levels.

Three Wheelbases

- 126.8 inches – Regular Cab w/standard bed.

- 145.7 inches – Regular Cab w/long bed, Double Cab w/standard bed and CrewMax.

- 164.6 inches – Double Cab w/long bed.

Three Bed Sizes

- Regular Cab and Double Cab: standard bed (78.7 inch) or long bed (97.6-inch).

- CrewMax: short bed (66.7 inch).

- All Tundra beds are 22.2 inches deep and are stamped to accept 2x8 ft. lumber dividers.

- Lockable all-steel tailgate can be effortlessly opened and closed with just two fingers.

- Available bed Deck Rail system.

Three Levels of Power

- Std. for Regular and Double Cab: 4.0-liter V6, 236 hp, 266 lb.-ft. peak torque.

- Std. for CrewMax, opt. for others: 4.7-liter iForce V8, 271 hp, 313 lb.-ft. peak torque.

- Five-speed automatic transmission standard for V6 and 4.7 V8 engines.

- Opt., all models: 5.7-liter iForce V8, 381 hp, 401 lb.-ft peak torque, six-speed automatic transmission.

- All SR5 and Limited models feature a floorshift with sequential shift mode.

- All Tundra engines use regular-grade (87 AKI) fuel. The iForce V8 engines target to meet ULEV II emissions certification; V6 is ULEV II.

Chassis

- Fully boxed frame rails for the front half and rolled C-channel members for rear half.

- Double A-arm front suspension with coil-over spring/shock units; rack-and-pinion steering; rear suspension maintains level ride height even with full load.

- Largest std. wheels in the segment: 18 x 8 in. with 255/70R18 tires.

- Limited grade: std. 18 x 8-in. aluminum-alloy wheels with 275/65R18 tires; opt. 20-in. alloy wheels with 275/55R 20 tires.

- Optional TRD (Toyota Racing Development) Off-Road Package available on Regular and Double Cab V8 models combines off-road tuned suspension, 275/65 R18 off-road tires, engine skid plates, front tow hook, fog lamps, and special graphics.

Advanced Traction and Brakes

- Standard rear Automatic Limited-slip Differential (A-LSD) provides better control on poor surfaces compared to mechanical LSD.

- Available part-time, shift-on-the fly four-wheel drive system with HIGH and LOW ranges.

- Vehicle Stability Control (VSC) standard for all models — driver-selectable VSC system integrates active traction control (A-TRAC).

- Four-wheel ventilated disc brake system features four-wheel anti-lock brakes (ABS) with Electronic Brake-force Distribution (EBD) and Brake Assist (BA) standard on all models.

Function, Comfort and Convenience

- Large door handles and control knobs can be operated while wearing work gloves.
- High Solar Energy Absorbing (HSEA) glass filters much IR (solar heat) and most UV (skin-sensitive) light energy entering the vehicle, reducing occupants' sun exposure, helping to keep the interior cooler, and enhancing interior durability.
- Tundra offers richly textured fabrics and deep-grain leathers available in four colors; CrewMax Limited offers optional power tilt/sliding moonroof.
- Standard manual tilt-and-telescoping steering wheel is a segment first, as is available power tilt-and-telescoping steering wheel.
- Upper glove box can hold a standard Thermos® bottle; center console can hold a laptop computer or hanging file storage – a pickup truck first.
- The cockpit's 12v outlets remain live for up to two hours after the ignition is switched off.

Major standard features, Regular Cab DX:

- AM/FM/CD stereo with four speakers and audio input jack
- Dual-zone manual climate control
- Driver and front passenger seat side airbags
- Roll-sensing curtain airbags with cutoff switch
- Front bench seat with 40/20/40 split and passenger side fold-flat
